Subject : Comments on draft report *Resorcinol diglycidyl ether*
Your reference : Letter dated November 17, 2015
Our reference : U-875508/DC/fs/246-E28
Enclosure(s) : 1
Date : February 29th, 2016

Dear Dr. Lentz,

Thank you for accepting the invitation to comment on the draft report *Resorcinol diglycidyl ether*, which was published for public review in Autumn 2015 by the Subcommittee on Classification of Carcinogenic Substances of the Dutch Expert Committee on Occupational Safety (DECOS) of the Health Council of the Netherlands. The Committee has taken your comments into consideration. On behalf of the President of the Health Council, I herewith send you the reply.

The committee agrees with changing the spelling of the substance name 'diglycidylresorcinolether' as used in published papers on the carcinogenicity and mutagenicity of the substance. As the chemical name used by the EU is resorcinol diglycidyl ether, we used this name in the report.

As mentioned previously, all comments received and the response of the committee will be publicly available (www.gezondheidsraad.nl) from the moment of presentation of the final report. The following information will be provided: name of person delivering the comments, company name (if applicable), and place of residence or business.

The Committee appreciates the comments by NIOSH. Enclosed you find a copy of the final report, which was published in February 29th, 2016.

Yours sincerely,

P.M.M. Coenen, MSc, ERT
Scientific secretary
